OSM TOOLS OVERVIEW

Silvia Almagia, ETSI
OSM-MR#1, Leganes, 28th June 2016

THE OSM PLATFORM

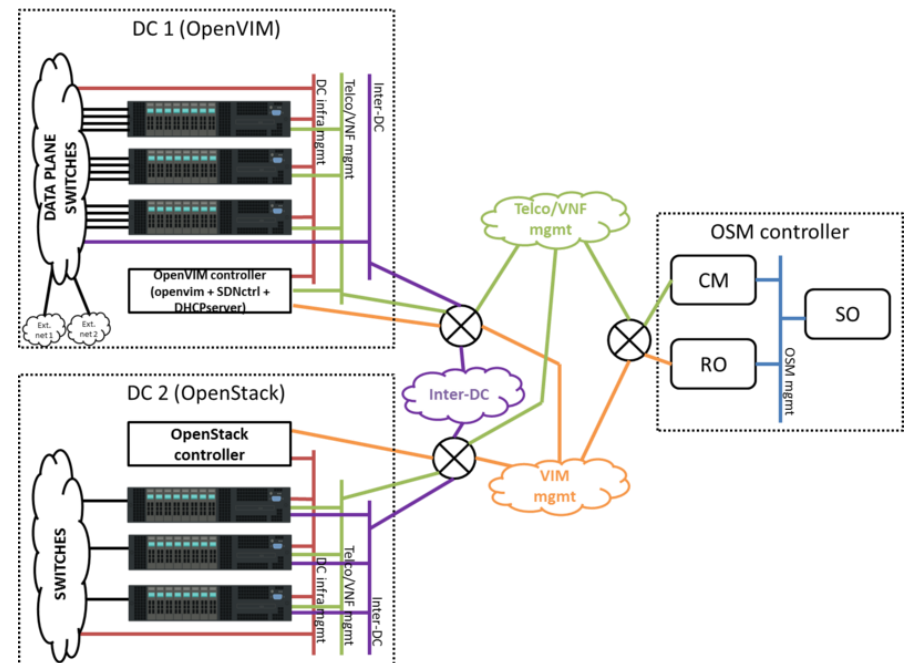

<https://osm.etsi.org>

The screenshot shows the Open Source MANO website. The header includes the logo and navigation links: HOME, ABOUT, TOOLS, NEWS & EVENTS, CONTACT, ACCOUNT, and LOGOUT. The TOOLS dropdown menu is open, listing various tools: OSM Wiki, Bugzilla, GitWeb, Gerrit, IRC, Pad, GitStats, Jenkins, MeetBot, Fossology, and Project Wiki. The main content area features a large heading 'Open Source MANO' and a description: 'to develop an Open Source NFV Management are stack aligned with ETSI NFV.' Below this, there are links to 'Learn how to join' and 'list of members & participants'.

- OSM Members and Participants login to the OSM Platform & tools with their EOL Account
 - To ensure your contributions are properly affiliated to your company
- Individual developers and end users can REGISTER and create an individual account to contribute code and feedback to OSM
